Maintenance Training: DA42 NG Airframe, Avionics and Austro Engine.

This five-day course includes classroom instruction covering airframe systems, propeller, and engine to airframe interface on the DA42 NG twin-engine aircraft. It also covers Austro Engine AE 300 engine and Garmin G1000 maintenance. A tour of the Diamond Aircraft factory is included.

The classroom is located in the Diamond Flight Centre, 2560 Blair Blvd., London, Ontario, near the Diamond Aircraft factory. The course, all course materials, and lunch on each day of the course is complimentary to Diamond Authorized Service Center personnel. A fee of \$800 US is applicable for all others. Participants are responsible for other meals and their own transportation and accommodation.
