Maintenance Familiarization Training – Registration Form

GENERAL INFORMATION

DESCRIPTION

In this 5-day course, we cover various aircraft systems following the ATA Spec 100 numbering system. The syllabus not only covers the Diamond airframe, but propeller, avionics, and powerplant systems will be discussed in detail as well. Special focus is given to Austro, and approval to work on these components may be authorized upon successful completion.

COST & ATTENDEE REQUIREMENTS

The cost of training is \$1,500 USD per attendee. Any/all travel and lodging expenses incurred while traveling to and from the point of origin are the attendee's responsibility. Lunch will be provided daily at no additional cost. Menu's will be provided daily.

COURSE MATERIALS & REQUIREMENTS

At a minimum, all attendees must bring something to take notes (ie. note pad, laptop, etc.). Laptops are preferred as this will allow attendees to follow along through various internet based portions of this training. If possible, attendees are asked to attend training in steel toed shoes. If unable, toe protectors will be provided along with safety glasses.

RUNTIME

45-60 minute information sessions with 15 minute open discussion. 30 minute lunch break. Open question forum at the end of each presentation.

COURSE SCHEDULE

DAY	TOPIC
