

Diamond DA62 FAA Certified!

Diamond's exciting new DA62 twin has received FAA certification, clearing the way for US customer deliveries.

"Our all new DA62 is getting overwhelming high praise from everyone that flies it. Its combination of cabin volume, utility, performance and efficiency make it an ideal traveller for the US market." said Peter Maurer, President and CEO of Diamond Aircraft Industries Inc. (Canada). "We are extremely proud to be offering this great aircraft, alongside our popular singles and DA42 twin."

Diamond's fleet of Austro jet fuel piston engine powered singles and twins are touring the USA, to let as many

pilots as possible experience the simplicity of operation, extraordinary fuel efficiency and performance of these unique aircraft. Currently the demonstration team is touring California, followed by stops in Nevada, Arizona, Texas and then moving to the Southeastern US, with more tour details to be announced in the near future.

For more information, or to register to experience the DA62 and our other models live, go to www.diamondair.com or call 1-888-359-3220.

About Diamond:

Diamond produces a full range of high quality certified all composite aircraft including the 2 seat DA20, the 4 seat DA40, 4 seat twin engine DA42 and 7 seat twin engine DA62. Diamond uses proprietary lead-free jet fuel piston engines, made by Austro Engine GmbH of Austria, for the DA40, DA42 and DA62. Diamond applies modern technologies to achieve high fuel efficiency, low noise, excellent performance and safety. Our aircraft are flown by private pilots and professional flight training operators and institutions worldwide.

The entire Diamond range is distributed in the USA and Canada by Diamond Aircraft Industries Inc. (Canada).
