

ACT NOW & SAVE OVER \$353,000 ON A DIAMOND DA62!

GROW YOUR BUSINESS & **SAVE BIG!**

With possible first year tax deductions of nearly \$900,000, and the potential to lower current-year tax liability by over \$350,000, the DA62 is a business tool that will not only boost your business and raise your quality of life, it's a sensible investment.

NO RISK OFFER!

Sign a secured* agreement to purchase a new Diamond, subject to satisfactory tax benefits and financing, and Diamond Aircraft will pay for Advocate Consulting's services, even if you do not close. Our independent professional tax and finance service

partners will help you and your accountant navigate through the intricacies of aircraft specific finance and tax benefits to help you make a sound decision.

IT'S ALL ABOUT TIME AND MONEY.

Maximize business opportunities while having more time for loved ones. Travel direct, to more airports that are close to your home and destinations.

No comparably priced aircraft will transport as many, as fast, and as far, for as little money as the ground breaking Diamond DA62.

With 7 seats, a spacious cabin and excellent useful load, you can take everyone you need. Fly yourself or leave the flying to a pro while you relax on your way home after a long hard day.

The DA62 features twin engine safety with single engine fuel efficiency and ease of operation. Twin engines and known ice certification give full confidence when inhospitable terrain, open water, night and inclement weather are part of your flight plan. It can be the difference between getting there or spending an extra night – or worse.

The DA62. It's a flying SUV, a superb business tool and more affordable than you might think.

Information prepared by Advocate Consulting Legal Group, PLLC. These results illustrate depreciation that is allowable under current federal tax guidelines for qualified taxpayers who use their aircraft in their trade or business. However, there are a number of factors that are dependent on individual taxpayer circumstances that can impact the amount of depreciation deduction available. For more information contact Advocate Consulting at 888-325-1942.
