

Diamond Enhances Sales and Marketing Presence in Northwestern United States & Canada

Diamond has expanded their ASR network with the recent addition of Braden Messenger of bmAircraft (www.bmAircraft.com). Based in Kelowna, BC, bmAircraft will be representing the entire Diamond product line, effective immediately.

Scott McFadzean, CEO of Diamond Aircraft Canada, stated “We are very pleased to have Braden join our ASR team. He knows the product intimately, as he flies a DA-42-VI and his central location was ideal for our Western customers.”

bmAircraft will be focussing exclusively on the Diamond product line. “The decision focus on Diamond only was an easy one.”, says Braden Messenger. “I absolutely LOVE the product! With over 20 years of flying, in a variety of aircraft, I can say without any question that the Diamond product is the safest, most economical and technologically advanced GA aircraft I have ever flown. I look forward to introducing more pilots to the exceptional Diamond product line.”

About Diamond:

Diamond Aircraft, headquartered in Austria, produces a full range of high quality certified all composite aircraft including the 2 seat DA20, the 4 seat DA40, 4 seat twin engine DA42 and 7 seat twin engine DA62. Diamond uses proprietary lead-free jet fuel piston engines, made by Austro Engine GmbH of Austria, for the DA40, DA42 and DA62. Diamond applies modern technologies to achieve high fuel efficiency, low noise, excellent performance and safety. Our aircraft are flown by private pilots and professional flight training operators and institutions worldwide. The entire Diamond range

is distributed and supported in the USA and Canada by Diamond Aircraft Industries Inc. (Canada).
